Carte Blanche

Suzanne Tucker Home

Clockwise from top left: English Rose Carte Blanche co-founder Rachel Shaffer developed this rosy room scheme for a young professional with a passion for tailored and colorful British country house interiors. Farrow & Ball's delicious Hague Blue was the starting point, and time-honored pinks emerged as a feminine counterpoint for the living room. The Surya rug quickly became essential to this soft but not saccharine look, with upholstery choices enhancing the pastel appeal. carteblanchexd.com | **Pretty in Pink** The florals of interior designer Suzanne Tucker's Latika are rendered in masterful embroidery on a linen-blend ground. Available in six colors, Latika is the perfect alternative to a floral print. To the trade. suzannetuckerhome.com
